COUNTY BOARD OF SUPERVISORS APPROVE RIM OF THE WORLD HISTORICAL SOCIETY MUSEUM

Today, the Board of Supervisors, acting as the governing body of the Lake Arrowhead Fire Protection District approved a 10-year lease agreement with the Rim of the World Historical Society from January 1, 2007 to December 31, 2016. The facility was the former Lake Arrowhead Fire Station located at 27276 Peninsula Drive and Lake Arrowhead and is no longer needed by the District.

The Rim of the World Historical Society will convert and refurbish the 3,742 square feet space into a museum for the purpose of research and public education. "This is a wonderful opportunity for members and visitors of the mountain communities to learn about the history of the mountains where they live, work, and play," said County Supervisor Dennis Hansberger. "The more information available to the public, the better informed they are of the issues surrounding the mountains." Fire Chief Dennen agreed with Hansberger, "We're happy to make space for the Rim of the World Historical Society. The museum will surely benefit the public, providing a forum to learn about the history of the mountains, including its history of fires and the importance of fire safety."

The museum will be open to the public from May 30 through October 15 on an annual basis and will be closed during the winter months due to extreme weather conditions. Admission is free of charge, but donations are appreciated.
